

► E-commerce

► **D**iscover the amazing benefits e-commerce can give to you and your customers! We can help you meet your commercial success on the Internet and can guarantee great marketing results.

- E-commerce is the evolution of today's world marketing methods and you can't stay behind! It's proven that Internet commerce increases rapidly, and your business needs to catch up with these new circumstances. Even if you think that the majority of your customers will continue purchasing your products or services the traditional way, there is an obvious growing percentage that would like to have the option of purchasing online. And today you can't afford losing any of your prospectives.
- E-commerce websites are online shops that never close, and require almost no human resources or maintenance. They know no physical restrictions - they are open for your customers everywhere, everytime. And better of all, they allow you get an insight on your customer's behaviours - what they like or dislike, what they are interested in, where they came from, so you can understand the strong and weak points of your marketing.
- At AIT, we understand that e-commerce websites are, if properly designed, an excellent marketing investment and sales channel. We have been designing and developing e-commerce websites since our first days, and they are one of our specialities. Not only we focus on the aesthetics and usability of the "front end" available to the visitors, but we also provide a proprietary admin panel, that is a Content Management System (CMS) that will allow you to add and update your products or services, and track your orders very easily.
- We invite you to browse our portfolio. Our sales team is always available to help you if you have any doubt about our web development services.
