

## ► Web Portal

- **I**n need for an eye-catching and cost-effective web portal?  
 We can provide attractive web portals designs and web development that will surpass all of your expectations.

- It's a fact that the key to success when it comes to web portals is an attractive design, lots of useful information for your clients and a robust Content Management System (CMS) that will allow you to keep all this information updated.
- At AIT, our first step is to understand your portal needs and requirements. We get involved in the project, designing the navigation, thinking about the usability, and providing a very easy-to-use proprietary CMS that will make the whole process of deleting, editing and adding items of information a snap. This system is an Internet-based software that allows you to make any changes you want easily, and get the results you aim at.
- If you are in need for an efficient, user-friendly web portal, don't hesitate to contact us! You will get a quality design that will be in line with those major and renowned web portals on the Internet. AIT comprises web developers and graphic designers with the experience and skills necessary to carry out the complete job a web portal involves. We can guarantee your satisfaction!
- Our sales team is always available to help you if you have any doubt about our design and development services.
